ADDENDUM #3

**REQUEST FOR PROPOSAL FOR AN ENGINEERED CULVERT DESIGN
MUNICIPALITY OF GREENSTONE**

PAGE 1 OF 1

SEPTEMBER 21, 2021

Response to Question 1 of 1 as posed:

Question #1

The subject crossing has a 125.8 sq. km. drainage area culminating at Hutchison Lake. There are no rain gauges in the area. Are there stream flow/level gauges on the lake? Is this information available?

Answer #1

No, there are no gauges that the Municipality is aware of.
