To ensure the safety of all participants and facilitate orderly inspections, no more than two (2) representatives of an interested party shall be permitted to attend a site visit at any one time.

Visitors should be aware that the building is currently without hydro service and that interior areas may have limited or no lighting. Appropriate footwear is mandatory, and visitors are required to bring a flashlight. Debris may be present on floors and throughout portions of the building, creating potential trip, slip, and other safety hazards.

Prior to entering the property, all visitors must sign a Declaration and Acknowledgement confirming that they understand the condition of the property, are aware of the potential hazards, and agree to enter the site entirely at their own risk.

This addendum forms part of and shall be read in conjunction with the original Public Tender document. All other terms and conditions of the tender remain unchanged.
